

Dr. Samuel Ayodele Mesele PMP

[Soil information systems](#) [Soil health](#) [Soil carbon–nutrient dynamics](#) [Soil degradation & pollution](#)
Soil Scientist | International Institute of Tropical Agriculture (IITA)

Biography

Dr. Samuel Ayodele Mesele, PhD, is a soil scientist and researcher at the International Institute of Tropical Agriculture (IITA), specializing in soil health, soil fertility, carbon dynamics, land-use change, and environmental risk assessment in African agroecosystems. His research focuses on generating reliable soil information to support sustainable land management, climate-resilient agriculture, environmental risk assessment, and evidence-based decision-making. Dr. Mesele has contributed to major regional and continental soil initiatives, including Soils4Africa and Soils4Liberia, supporting field coordination, harmonized soil data generation, knowledge sharing, and capacity development. His research interests include nutrient and carbon dynamics, phosphorus and micronutrient availability, land-use effects on soil health, soil degradation, digital soil information, and trace-metal risks in agricultural landscapes. Recognized as an Ambassador of the Africa Soil Information Community of Practice, he is committed to collaborative science, mentoring young researchers, and strengthening Africa's contribution to soil science, food security, and sustainability. His professional experience spans Nigeria, Ghana, and Liberia through long-term assignments, with short-term assignments in Ethiopia, Kenya, Tanzania, Madagascar, Zimbabwe, Mozambique, Angola, DR Congo, Cameroon, Burkina Faso, Mali, Niger, Côte d'Ivoire, and Senegal.

Professional Information

Full Name: Dr. Samuel Ayodele Mesele PMP

Profession: Soil Scientist & Researcher

Qualifications: B. Agric, MSC, PhD Environmental Soil Science

Organization: International Institute of Tropical Agriculture (IITA)

Location: Monrovia, Liberia

Research Profile: [IITA](#)

Contact Information

Primary Email: s.mesele@cgiar.org

Alternative Email: ayodelemesele@hotmail.com

Telephone / WhatsApp: [+234 805 764 6091](tel:+2348057646091)

Research Profile: [IITA](#)

Research Areas

• Soil Fertility • Soil Health • Digital Soil Mapping • Soil & Water Conservation • Sustainable Agriculture • Nutrient Management • Soil Degradation
